**Subject:** Latest Version of the Koster Letter

The Honorable Chris Koster  
Attorney General of Missouri  
P.O. Box 899  
Jefferson City, Missouri 65012

Dear Mr. Koster:

This Agency has received your Freedom of Information Act request dated June 2, 2014 (EPA-RIN-2014-007050), seeking records in the possession of the EPA “concerning any analysis, investigation or information generated by or for EPA concerning the transportation routes used to move soils or other materials from the Hazelwood Interim Storage Site (HISS) in Hazelwood, Missouri to the West Lake Landfill (EPA MOD079900932) in Bridgeton, Missouri.” Please note that the sampling effort which you are seeking the raw data for was not conducted by or for EPA, and that EPA does not now possess, nor has it ever possessed, such raw data.

While EPA has no obligation to seek records from other state or federal agencies to respond to a Freedom of Information Act request, we have taken the unusual step of reaching out to the U.S. Department of Energy to ascertain whether it has responsive records. The records obtained by EPA through this effort, as well as records that EPA has obtained from the Missouri Department of Natural Resources and the U.S. Army Corps of Engineers, can be accessed at the following URL: <https://foiaonline.regulations.gov:443/foia/action/public/view/request/80294ea7>. In the event that EPA locates any additional records that are responsive to your request, those records will be immediately provided to you.

I believe that a meeting with you and your staff, at a time and location convenient for you, would enable the EPA and the USACE to assist you in understanding the scope and

results of the historical sampling efforts conducted on haul roads. This meeting will help establish a common understanding of the extensive body of historical sampling and analysis conducted along the routes used to move soils or other materials from HISS to the West Lake Landfill, as documented in the USACE's September 2, 2005 Record of Decision for the North St. Louis County Sites. I have discussed this proposed briefing with Colonel Christopher Hall, commander of the USACE St. Louis District Office, and he has assured me that he would make appropriate staff available for such a meeting.

I remain dedicated to partnering with the State of Missouri to carry out this Agency's public health duties connected to remediating the West Lake Landfill NPL site.

Sincerely,

Karl Brooks

cc: Colonel Christopher Hall, USACE  
Sarah Parker Pauley, MDNR
